Hello Lily,
I am also attaching a 2011 Phase I for 900 Innes, as well as a sediment analysis done for the site. Under EPA's Brownfields Community Wide Assessment grant to SF Department of the Environment, URS is also preparing an assessment on the Shipwright's cottage on the site (LBP and ACM), as well as a health risk screening analysis for the India Basin Waterfront Park, which includes 900 Innes.

Separately, SF DOE is assessing upland areas around Yosemite Slough. Let me know if you need additional information from me. Thanks, Nova

Thanks Tina!

Nova, you no longer have to send this to me. Tina already took care of it. Do you know - Did they do anything else besides this?

Lily Lee
